

## Delivering the Latest in Efficient, Reliable, and Eco-Friendly Energy Solutions

Contra Costa Electric offers a wide range of renewable energy and energy retrofit solutions from experienced professionals. We understand the complex nature of constructing and supporting renewable energy projects and have proven experience providing energy solutions that deliver reliable performance and outstanding long-term value—even in the most extreme environments.

### Why choose Contra Costa Electric?

- › Proven record of success throughout our 75 years in the industry
- › Experience installing hundreds of acres of solar panels across California
- › Leverage cutting-edge technologies, including the latest photovoltaic, micro-grid, and energy storage innovations
- › Long-standing working relationships with region's utility providers
- › LEED-accredited experts with vast experience in renewables and energy management
- › ISO 9001:2015 certification
- › Design-build and design-assist capabilities
- › In-house engineering support
- › Multiple industry safety recognitions

### Your Single-Source for Renewable and Energy Services

- › Solar panel installation and services
- › Energy storage, including but not limited to battery storage systems
- › Micro-grid services
- › Vehicle charging stations
- › Energy retrofits and Leadership in Energy and Environmental Design (LEED) certification
- › Utility connections and grid tie-ins
- › Geo-thermal and hydro-generation design, installation and maintenance

### WHAT WE DO

---

#### Commercial

- Design Build and Design Assist
  - Power and Lighting Controls
  - Energy Management and Emergency Power
  - Renewable Solar Energy Battery Storage
- 

#### Industrial

- Electrical Distribution
  - Cable, Cable Trays, and Conduit
  - Lighting Controls and Automation Systems
- 

#### Low-voltage, Telecom and IT systems

- Nurse Call and Fire Alarm
  - Audio/Visual
  - Security and Card
  - Voice/Data Networks
  - Network Engineering And Integration
  - Fiber Optic Cabling - Aerial and In Conduit
- 

#### Utilities

- Switching Stations and Substations
  - Power Transmission and Distribution
  - Cogeneration and Power Plant Construction
- 

#### Facilities Maintenance

---

### WHAT CAN WE DO FOR YOU?

**Contra Costa Electric**

**Martinez Office**  
825 Howe Road, Martinez, CA 94553  
925.229.4250

**Bakersfield Office**  
3208 Landco Drive, Bakersfield, CA 93308  
661.322.4036

**Fresno Office**  
4690 E. Carmen Avenue, Fresno, CA 93703  
559.252.1114

## Installing the Latest in Solar and Photovoltaic Technologies

Photovoltaic technologies—as well as the utility grids they are attached to—are constantly evolving. With vast experience installing ground-up solar projects as well as add-ons to existing facilities, our team helps clients make informed, intelligent decisions about the solar solutions they need.

Our solar services include:

- › Module installs
- › Controls
- › DC and AC wiring
- › Testing and start-up
- › Utility inter-connect and grounding

## Proven Efficiency Solutions, from Certified Energy Experts

From upgrading power systems to redesigning lighting to incorporating renewables and more, we utilize well-defined, forward-thinking energy management solutions that help reduce energy consumption and positively affect your bottom line. And, our accredited energy professionals are ready to support green design, integrate systems and subsystems to LEED standards, and expedite LEED certification.

## WHERE WE DO IT

Biotech/Healthcare

Commercial

Education/Entertainment/  
Hospitality
